

The broad nature of this T Level will prepare you for a role in a huge range of sectors, not just IT. That's because in the UK, and globally, most companies have some form of digital requirements, whether it's a company website or an internal IT system.

To broaden your options, you will cover a variety of topics, from coding, to web design, to marketing. This means that when it comes to employment, you will have the knowledge and skills to go wherever your ambitions take you, whether that's working in the IT department of a building company, or fine-tuning a bank's new accounting system.

Equivalent to three A Levels, this two-year programme has also been developed in collaboration with employers and businesses, so you can rest assured that that the content is relevant and up to date.

You'll spend 20% of your time on an Industry Placement, giving you vital experience in the world of work and a CV to wow future employers. Your employer may also provide you with that invaluable first reference, whilst a number of our students have also been offered full-time contracts following successful Industry Placements.

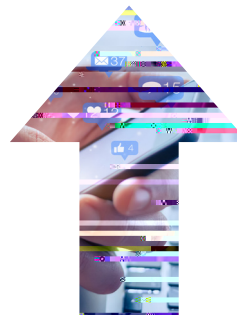

Topics covered include:

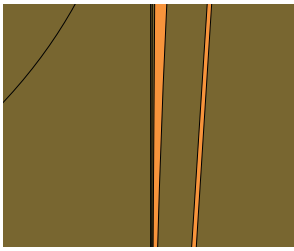

- Programming
- The Impact of Digital - AI, AR & VR
- Data & Security
- Digital Environments

On your Industry Placement, you will experience life in the digital industry, possibly working on a real-life development project; for example, you may find yourself working alongside a Software Developer, following the full software lifecycle, right from the design phase through to testing.

Your programme consists of the following elements:

- Study of your chosen vocational subject - 80% of your programme
- Employability skills such as punctuality, attendance, communication and team work but most especially the values and expectations of your chosen occupational sector
- Industry Placement, giving you a taste of working life – 20% of your programme
- Tutorial and personal development such as healthy living, volunteering and citizenship skills

Sitting a job interview, writing a personal statement, applying for university - taking part in our enrichment programme will give you a CV to wow in all of these situations! You'll benefit from:
